# HOW IT CAME TO BE...

In 2008, I took the plunge and started my own marketing company. Rather than be a stereotypical agency, I wanted to create a business that reflected my passion for giving business owners the chance to grow their business, based on cost effective marketing and a return on investment they are able to measure and prove. I've carefully hand-picked my team of four, making sure they share my values. I consider myself part of their team, rather than their boss and we're all very close.

## PROJECT BACKGROUND

We've worked on hundreds of businesses from all industries and walks of life. Our main skill is marketing psychology which puts us in a unique position to be able to think like your customer. This is why we're successful. We operate on a white label basis, which means we don't take credit for your work and we work as part of your team. We make you SHINE, not us.

## GOALS & OBJECTIVES

Grow your business *with* you as part of your team

Never tie you into a contract

Ensure cash-flow pays for your marketing

Always be honest with you and never give you false promises

Google ads are well known for burning through budgets leaving you frustrated and out of pocket. We work on the principle that you should only pay for what works. It's not about being at the top of Google for vanity purposes, it's about ROI (return on investment).

## TERMS

Very simple, you'll be pleased to know.

I've run my 3 businesses for over a decade, I don't like complicated. All I ask is that we communicate well and you give me 30 days heads up if you want to stop working with me. In return, I won't ever insist you sign a contract and I will never give you false promises. If something isn't right I will be the first to tell you.

We look forward to working with you.
